## **Do you believe there is *A Better Way*?**

Dear Members and Friends,

A Better Way Foundation (ABWF) is excited to celebrate Ten Years of institutional changes through civic engagement in Connecticut. Our success is based on hard work and donations from supporters like yourself.

In 2003, ABWF made resources available to grassroots organizations allowing them to have a greater role in criminal justice policy-making. As a result, public safety has increased through public health and prison reform efforts. We continue to function as a research engine and an expert in democratic revitalization for allies, political officials, constituents, and various organizations throughout Connecticut. Starting in 1999, we facilitated a public education and policy advocacy strategy that created important changes in Connecticut's drug policies. For every dollar spent on drug treatment in the community, the public receives \$6 to \$7 in benefits from decreased crime, decrease cost of incarceration, stable employment, and more, according to Justice Policy Institute 2008 report.

Drug Policies affect everyone in Connecticut from newborns to our seniors. Due to budget cuts, resources have been taken away from education, transportation, housing, treatment, and prescription drug support. Those resources are currently being used to fund a public safety platform that ruins our communities and families. It is time to do something new! It is time for a holistic strategy for Connecticut! Donate today if you believe there is A Better Way!
